## ■ PROFILE

A dedicated and solution-oriented software developer with extensive experience in mobile and web application development, specializing in Flutter and Django. Skilled in designing and implementing scalable and efficient solutions that enhance user experience and system performance. Adept at collaborating with cross-functional teams, mentoring junior developers, and delivering high-quality applications. Driven by a strong problem-solving mindset, continuously exploring emerging technologies to improve development efficiency. Committed to knowledge sharing, having conducted workshops and guided interns in building industry-ready applications.

## ■ SOFT SKILLS
